

# **Blade Wash® Cleaning Solution**

*Oster Professional Products*

## **Description:**

Excellent for flushing hair accumulated between upper and lower cutting blades. Removes congealed factory applied preservative from new blades. Provides lubrication for cutting blades.

NOTE: Immerse blades only in solution. Do not immerse any part of clipper.

## **How to use blade wash®:**

1. Pour Blade Wash® into a shallow container, such as a small bowl or saucer. Immerse clipper blades while clipper is running. DO NOT immerse any part of clipper. Remove blades from Blade Wash® and wipe dry with a clean, dry cloth. Then apply a thin film of Oster® Blade Lube™ Premium Clipper Oil. Resume clipping. Always use Blade Wash® after completing a clipping job.
2. New blades are usually coated with preservative that may affect cutting. Immerse new blades in Oster® Blade Wash®, following above instructions. Apply Oster® Blade Lube™ Premium Clipper Oil before use.

## **Danger:**
