

Zero-Bite Natural Insect Repellent

Pyranha®

Description:

Water-based insect repellent. For use on horses and ponies.
Repels stable flies, horse flies, deer flies, face flies, house flies, horn flies, mosquitoes, gnats, bot flies, ticks, fleas, lice.

Active Ingredient:

Geraniol..... 0.25%

Other Ingredients*..... 99.75%

* Water, Coconut Oil, Hydrogenated Castor Oil, Wintergreen Oil, Citric Acid.

Directions For Use:

Use only in accordance with label directions and precautions.

Zero-Bite has been especially developed for use on horses. It provides a protective hair coating against flies. One or two ounces per head per day gives adequate protection. Apply by either soft cloth or fine spray mist.

Directions For Wipe-On Use:

Thoroughly brush horse to remove excess dirt and dust. Moisten (but do not wet to the point of dripping) a soft cloth and rub over the hair. It is best to apply by rubbing against the direction of hair growth. Give special attention to legs, shoulders, shanks, neck and facial areas where flies are most often seen. Only light application is needed. Avoid using in excess amounts. Do not wet skin.

Directions For Trigger Spray Use:

Zero-Bite may be applied as a light spray mist to horses, then brush lightly. Do not wet horse's skin. Do not spray near eyes and mucous membranes, apply with a soft cloth in these areas.

Precautionary Statements:

May cause eye and skin irritation. Avoid contact with skin, eyes or clothing.

Storage and Disposal:

Do not contaminate water, food or feed by storage or disposal.

Storage: Store in original sealed container in a cool, dry, well-ventilated area inaccessible to children and pets.

Disposal: If empty: Do not reuse container. Place in trash or offer for recycling if available. If partly filled: Call your local solid disposal agency or 1-800-CLEANUP for disposal instructions. Never place unused product down any indoor or outdoor drain.
