OUTSIDE appearance reflects INSIDE health

Stunning coat, solid physique, rock solid joints, and boundless energy that's so striking it literally stops the show! These coat and body benefits result from optimal inner health. These striking show dog improvements benefit pets, too.

ULTRA digestible ingredients - makes traveling easier

The highest quality human grade supplements are selected for ease of digestion and absorption. We even use "friendly" energy nutrients partially predigested for rapid easy uptake. Pre/probiotics & enzymes further aid digestion.

Stronger muscles, stronger hips - less CHD risk

Studies reveal hip health directly relates to pelvic muscle mass development. The greater pelvic muscle mass & strength supporting hip joints, the lower the chance of CHD. ShowStopper helps improve lumbar muscle development, increasing odds of lifelong hip health

Eliminates expensive guesswork, trial-and-error supplementing. Foolproof, automatically perfect ratios every time. Quick, clean convenient, saves money. And no more playing "hide the supplement" because your dog will LOVE it!
