

# Mane 'n Tail® Pro-Tect™

## *Straight Arrow®*

### **Description:**

The original Mane 'n Tail Pro-Tect Antimicrobial Medicated shampoo is a gentle cleansing therapeutic formula that goes beyond other simple antifungal or ordinary antibacterial products. Pro-Tect provides complete protection and treatment of topical skin problems. Pro-Tect with skin conditioning emollients does not irritate or stain and has a pleasant fragrance. Unsurpassed effectiveness on organisms associated with: fungal and bacterial problems; rain rot, scurf and ringworm; hot spots, skin rashes and dry patches; girth itch; other opportunistic infections (virus, yeast, mold, etc.).

Why antimicrobial treatment? No matter which organism (fungus, bacteria, etc.) initially creates a skin problem, there are numerous opportunistic organisms that can additionally invade the vulnerable site preventing skin healing. Pro-Tect Antimicrobial Medicated Shampoo provides complete broad-spectrum effectiveness that eliminates all of these organisms with proven results for faster healing.

### **Indications:**

For horses and other animals. Use daily to clear up initial problems. For preventative treatment use weekly or more often as needed.

### **Active Ingredient:**

An exclusive Quatracin™ Benzalkonium Chloride Base.

### **Directions:**

Pre-wet the coat with clear water. Add Pro-Tect into a bucket of water (2 to 4 ounces per gallon of water). Apply shampoo solution with a sponge or soft brush and massage until lather appears. Allow lather to remain for 10 minutes. Rinse thoroughly. For more severe problems, follow up with deep penetrating Pro-Tect Antimicrobial Topical Skin & Wound Treatment.

### **General Precautions:**

For external veterinary use only. Pro-Tect effectiveness may be reduced if used in conjunction with other shampoo and treatment products. Consult a veterinarian if any problems persist or are of concern. Keep out of reach of children.
