

Sarcoid Cleansing Salve

- **Pre and post-operative emollient**
- **Enhances healing**
- **Reduces scarring, allowing for hair re-growth**

Bovine Papilloma Virus – Natural herbal relief. Will not burn, heals hot spots and eliminates tumors at their source. Sarcoid Cleansing salve pulls the virus from the bloodstream.

Recommended as a pre and post-surgical emollient. Use as a preventative measure so that a sarcoid tumor will not reappear.

Usage/Treats: Apply daily.

Sarcoids – The veterinarian’s challenge. Once corrective measures are taken, the virus may travel to other points and come back more aggressively. For the horse owner, this virus is a heartbreaker.

Sarcoid Cleansing Salve is the new, safe way to establish an aggressive, painless and effective treatment of this ever-increasing problem. The sarcoid cleansing salve is specifically designed to help clean the underlying cause of the condition through topical application. Exclusive natural compounds blended to perfection to treat this condition. It also helps to eliminate re-occurrence at the sight or eruption at competing sights elsewhere in the body.

Recurrence After 3 Years

Traditional Surgery	60%
Cryosurgery	80%
Radiation Therapy	70%
Immunotherapy	65%
Chemotherapy	80%
Combined	85%
