

# Vet Liniment, 16 oz

For over 100 years, Corona® has been protecting the health and vitality of horses. Corona® Veterinary Liniment is an outstanding horse liniment that provides relief for your horse.

- Aids in temporarily reducing soreness, stiffness, and inflammation of muscles and achy joints
- Our unique combination of Menthol and Eucalyptus help to stimulate circulation where applied
- Contains botanical oils to help soothe and renew
- The lotion stays in place making it easy to massage into muscles and legs
- Compare our value to other horse liniments
- Formerly known as Horseman's Dream® Veterinary Liniment®

#### **Active Ingredients:**

Eucalyptus Oil 3.1%, Menthol 0.49%

#### **Inactive Ingredients:**

Allantoin, Aloe Powder, Ascorbic Acid, Camphor Oil White, Isopropyl Alcohol, Isopropyl Palmitate, Methylparaben, Polysorbate-80, Purified Water, Propylene Glycol, Propylparaben, Triethanolamine, Ultrez-10 Powder, may contain citric acid.

#### **Directions:**

Sore or stiff muscles or achy joints:

Massage generously several times daily with Corona Veterinary Liniment. To aid in preventing soreness or stiffness, massage generously after a hard workout or overexertion. Prompt use will help reduce soreness and stiffness. It may be heat packed with hot, moist towels if desired.

Swelling:

Massage thoroughly with Corona Veterinary Liniment. Wrap lightly with 3-5 layers of gauze saturated with Corona Veterinary Liniment. Cover with several additional layers of gauze for 8-12 hours. Use this same procedure for setting up. If wrapping is not possible, massage at least four times daily with Corona Veterinary Liniment. Note: For extreme cases of swelling associated with heat, always consult a veterinarian prior to treatment.

Minor Sprains:

After removal of ice or cold packs to control swelling, massage and wrap as per Swelling directions above. After removal of wrap, massage at least four times daily with Corona Veterinary Liniment.
