

## K9 Joint Strong

**Put Out The Fire and Make Real Joint Pain Progress!** Animal Naturals K9 Joint Strong joint support formula is designed to "Put Out the Fire" of dog joint inflammation. Dog joint pain and inflammation fighting K9 Joint Strong helps produce results even for dogs that are "non responders" to ordinary formulas.

The truth is all the Glucosamine in the world does little good if your dog has chronically inflamed joints and many do. Glucosamine barely penetrates inflamed joints. This is why many dogs are non-responders to Glucosamine.

**Gram for Gram, More Complete, More Powerful!** Animal Naturals Joint Strong puts out the fire of inflammation with ORAC\* antioxidants, as found in wolf diets. Reducing inflammation enables Animal Naturals K9 Joint Strong glucosamine, chondroitin, Omega 3s and more to work even better.

**Animal Naturals K9 Joint Strong** is designed to provide dual benefits, joint factors and antioxidants. Joint factors include USP-standardized glucosamine, MSM and others to help maintain normal joint function. In addition, natural antioxidants help protect cells (including joint) from free radical damage. This two-way joint support health strategy is meant to help maintain joint mobility.

- 1,150 mg Glucosamine Per Scoop
- Antioxidant Protection
- 600 mg chondroitin sulfate + MSM
- Supports Healthy Joints and Flexibility
- Helps Maintain Joint Mobility
- Connective Tissue Support
- Ultra Concentrated
- Inflammation Fighting ORAC
- Natural Anti-Inflammatories
- Supports Joint Tissue Health
- Human Grade Ingredients

**Putting Out the Fire is the First Step!** K9 Joint Strong helps establish an anti-inflammatory foundation, and provides the functional nutrients essential for building toward real joint progress:

**First:** Reduce dog joint inflammation & discomfort, ease muscle soreness, increases movement, mobility and quality of life. Omega 3, flavonoids, polyphenols, ellagic acid, elevated SAME levels & MSM fight inflammation.

**Next:** Guard cartilage from chemical attack. Green Tea extract, acetyl-cysteine & curcumin inhibit cartilage destroying enzymes.

**Finally:** Support repair & growth, Glucosamine, Chondroitin, CMO help "turn on" anabolic processes to support cartilage repair & growth. Animal Naturals Joint Strong is concentrated, so only small amounts are used. Whatever the activity or joint status, K9 Joint Strong fights inflammation so glucosamine and other joint builders work better.
