

# Fish Bendazole

## DESCRIPTION

**Fish Bendazole 250mg - Fenbendazole Powder** is a powdered worming agent for tropical fish. It is extremely effective in both fresh and salt water environments. Fish Bendazole can be used against the calamus worm. It is also the only source of pure fenbendazole where other brands sit around 22%.

- **3 packets containing 250 mg.**
- Powdered worming agent for tropical fish
- Effective in both fresh and salt water
- Can be used against the calamus worm
- Only source of pure fenbendazole

## MORE INFO

### Directions:

Mix one packet with approximately four ounces of food and let soak for 30 minutes.

### Suggested Use:

Can be used in a hospital tank for single fish or in a main tank populated by fish only. Best used in combination with a fish antibacterial polymer to increase palatability and reduce loss of medication to water. Treat for 3 day duration with water changes and filtration between treatment.

### Caution:

For aquarium and ornamental fish only. Not for human use. Keep out of the reach of children. Keep container tightly closed and in a cool dry place. Not to be given to fish intended for food use.

## INGREDIENTS

Each packet contains: Fenbendazole... 250 mg
