

Pet Stain Remover

Get Serious!

Description:

Stain, odor and pheromone remover. Not a neutralizer or a cover-up. Unlocks and lifts away the toughest pet stains and odors. Gentle on carpet fibers and backing. Safe on carpet and fabric not harmed by water. Will not discolor and leaves no residue. Non-toxic, biodegradable, nonflammable and non-caustic. Never yellows, and can remove yellowing left behind by other cleaners. Enzyme free, safe near children and pets. No need for long saturation periods that can promote molds under carpeting.

Indications:

Removes: pet pee, pet poo, pet drool, pet hair, pet barf, pet sweat, icky stains, old yellowing, old stains, diarrhea, blood, spilled food, birthing "stuff", paw prints, red dirt, duck poop, grease and gum, and anything your pet tracks in!

Ingredients:

Water, Surfactant, Stabilizer, Softener, Natural Citrus scent. Only .05% phosphorus in the form of phosphates. pH7.

Directions for Use:

Before applying, test for colorfastness. Always follow carpet manufacturer's recommendations. Remove excess from area and blot up any wet soils.

1. Apply directly to stain and/or odor area.
2. Work in with soft brush. Instantly "bubbles up" stains and odors from under carpet padding to carpet surface.
3. Blot dry using a thick towel to absorb the bubbles as they rise to the surface carrying the stain and/or odor source. Toss towel in your next wash load. Let area dry.

If the stain is still visible and area is dry from first application, open cap and warm bottle in microwave for 30 seconds. Repeat steps 1-2-3, and let dry. Repeat if needed. Some cleaners contain agents that permanently "set" a stain. If you previously treated the stain with one of these agents, we cannot guarantee 100% effectiveness of our product on the same stain.

Wool: Always use cold on wool.

Upholstery: Lightly apply with fine "spray mister". Work into stain with very soft brush. Do not scrub or saturate. Blot very dry with towel and let dry. Repeat if needed.

Odor: Use Steps 1-2-3 above. Removes the odor source (not just neutralize it!) so pets won't re-mark.

Pet Hair: Spray mist area and wipe off with dry cloth.

Caution:

Keep out of reach of children. Avoid accidents, handle with care. In case of eye contact, flush thoroughly with water. If accidentally swallowed, drink plenty of water to dilute. Call a medical professional.

Manufacturer Guarantee:

Guaranteed or your money back. If you are not satisfied with the results when used as directed, mail the unused portion with your receipt to the address on the label. Manufacturer's liability is limited to refund of purchase price only.
