

PRIMATE DIET DRY

Highly palatable diet formulated to be fed as the basic diet for non-human primates and great apes, with exception of callitrichids, which require additional Vitamin D3.

FEEDING INSTRUCTIONS

Feed free choice to growing animal and non-obese prone animals. Otherwise feed measured meal quantities. Most primates will consume approximately 1 lb. of ZuPreem Primate Dry Diet per 35 lbs. of body weight daily. The correct quantity fed is one that maintains an appropriate body weight. Food consumption may vary between species and individuals of the same species. Adjust the amount offered to ensure each animal's optimum body condition.

STORAGE INSTRUCTIONS

Store in a cool dry place, free of pests and insects. Gently push air from bag and reclose after each use.

100% GUARANTEE

If you are not completely satisfied, return the unused portion of this product to ZuPreem along with the sales receipt for a refund.
