NET WT. 4 lbs. (1,816g)

**Ingredients:**

Total milk protein, protein free tallow, Maltodextrin, Modified tapioca starch, Silica dioxide, Creatine monohydrate, Whey protein concentrate, Safflower oil, Resistant Starch, Lactobacillus acidophilus, Lactobacillus bulgaricus, Lactobacillus casei, Lactobacillus caucasicus, Lactobacillus helveticus, Lactobacillus lactis, Lactobacillus plantarum, L-Arginine, Potassium chloride, Sodium Chloride, L-Histidine, L-Glutamine, L-Taurine, Freeze dried colostrum, Calcium citrate, Magnesium oxide, Potassium Iodide, Choline bitartrate, Vitamin E (alpha-tocopherol), Pyridoxine HCL, Inositol, Di-calcium phosphate, Copper gluconate, Zinc oxide, Folic acid, Thiamin monohydrate, Calcium lactate, Sodium selenite, Cobalamin (B12).

**Daily Feeding Instructions:**

**AS A MILK REPLACER** Prepare enough formula for use within 24 - 48 hours. Always store unused prepared formula in refrigerator. Begin with boiled or bottled filtered water that has cooled to room temperature (70°F). To make one pint of formula, mix 1 1/2 cups of water in a pint container/bottle. Add 2 scoops Puppy Gold powder. Mix or shake until smooth.

**FOR GROWING PUPPIES** Puppies should be weaned (removed from nursing) when about 25 days old. Mix 1/2 scoop of Puppy Gold powder with every 1 cup of dog food. Add warm water (not to exceed 70°F) as needed to produce a thick, soupy mixture.

**FOR PREGNANT AND NURSING MOMS** Provide 1/2 scoop Puppy Gold for every 10 lbs. of body weight into daily food supply and continue one month (4 weeks) after weaning.

**FOR WEANING PUPPIES** 1/2 to 1 scoop Puppy Gold with each 1 cup dog food. Feed dry or with water, or improvise. Feed until 4 - 6 months old.

**Guaranteed Analysis (per scoop):**

Crude Protein (min.)	28%
Crude Fat (min.)	28%
Crude Fiber (max.)	2%
Moisture (max.)	7%

**Scoop Included**      **1 scoop = 3 tbsp.**

This product is intended for intermittent or supplemental use only.
