

Fish Tapes Forte (Praziquantel 170mg)

Product Description:

Fish Tapes Forte (Praziquantel 170mg per water soluble capsule) for, the removal of tapeworms. Praziquantel: The drug of choice that has been shown to be 95% effective in the treatment of adult tapeworm infections associated with fish. It should be noted that Praziquantel does not kill the tapeworm eggs, so there is a high potential for reinfection with the eggs.

Active Ingredient:

170 mg Praziquantel

Directions & Dosage:

Empty 1 capsule for individual bathing in no more than 4 gallons of water. Start treatment with new water. Do not stop filtration, but remove activated carbon and UV sterilization. Distribute the amount around the edges or directly into the filter box for the best overall distribution.

One treatment lasting 5 - 7 days is usually sufficient, but no more than once every 3 - 5 days. May be used as a preventative at the standard dosage.

Do not use with any other drugs.

Contraindications:

There are no known contraindications, except for use in marine (saltwater) systems where flatworms of the Polycladida order are being cultured.

Caution:

Keep out of reach of children.

Fish Tapes Forte are for aquarium use only. Intended for ornamental fish and/or ornamental organisms, and not intended for use with fish that are intended for human consumption.

Storage:

Keep lid tightly fastened and store at controlled room temperature of 59° - 86°F. (15° - 30°C).
